

Outdoor learning experiences

Outdoor learning experiences are often remembered for a lifetime.

Outdoor learning experiences are often remembered for a lifetime. Integrating learning and outdoor experiences, through travelling, exploring, investigating and observing, provides relevance and depth to the curriculum in ways that are difficult to achieve within educational buildings. Outdoor learning provides students with holistic, real-life learning experiences helping them on their way to becoming caring global citizens. Carefully thought-out and planned school field trips are ideal for multi-disciplinary learning and are always a memorable and positive experience for school children. These trips help students understand and embrace cultural diversity and are key in creating internationally-minded lifelong learners.

„I hear and I forget.  
I see and I remember.  
I do and I understand.”

## About us...

We are a young, but experienced team of sports and travel enthusiasts. Top-notch organization and diverse programmes are our priority.

Active holidays, excursions and school field trips where our clients experience the great outdoors are our passion.

Our core values are:

- Diversity
- Excellence of service
- Responsibility
- Fun
- Customer satisfaction

We have specialised ourselves in organizing active learning field trips for schools (elementary to high school).

We have a long list of satisfied teachers, students and parents and have worked with numerous schools in the past. Together with IB schools we have laid down the foundations of what we now call "Outdoor learning experiences".

These active learning programmes promote healthy living and enable students to learn in stimulating environments.

We cater to all your needs and wishes.  
We make the impossible possible.
