

SKI TRIP

17th - 22nd January 2016

From 17th until 22nd January a group of E5 and MYP students went for a six-day ski trip to Nassfeld in Austria. We all gathered in front of school on Sunday morning and our bus soon began to move towards our destination. When we finally arrived to Nassfeld we were pleasantly surprised by the hotel which had lovely rooms and was placed in a beautiful location with great ski slopes. After unpacking we had fun at the indoor and outdoor swimming pool, later we had dinner and the meeting with our ski instructors.

During the next five days we went to the ski slopes where we were skiing and enjoying the snowy mountain landscape with blue sky sunshine. After skiing we would usually either go to the pool or have a disco time. On our last day we had a race and got our ski medals.

We had lots of fun during this ski trip because we were all skiing together and it was perfect for the students learning how to ski as well as for the students with advanced skiing skills. During the whole time we were very fortunate with the weather, blue sky, good snow and great team atmosphere.
